HOSIERY

Women Hosiery Needle for Stockings
Seamless Needle

Hook shape

The special hook shape will help customers to knit in a variety of forms and provide them with satisfying results. As if a sports car overcomes the resistance of the air and runs at high speed, it will be able to overcome the rough room and the high resistance.

Latch fit

As like high performance sports car in air resistance, SAMSUNG needle's Latch will take smoother movement and the best fit for making loop.

SAMSUNG KNITTING NEEDLE GLOBAL

FLAT

More than ever we can provide the ideal solution for your FLAT machine

The elasticity and stability of stitches can be enhanced by FLAT needle that provide high level of finish and uniform quality.

New type needles are designed to guarantee automatic latching of spring-back of the needle to open & close position.

This technique ensures the formation of uniform loop even when knitting multiple threads of bulky yarns.

Weak hardness that caused problems including bending and losing clip is enhanced and thus able to provide flexible movements without any quality problem.

WARP

A long history is born as a warp solution

Samsung can offer for your warp machine which is having various fabric concepts. It'll be your best choice according to your specific needs, strategic goals and special requirements. All warp needles were tested for best quality along with innovative solutions.

Raschel & Spec knitting needle

With extensive experience in knitting needle manufacturing, SAMSUNG is confident of offering customers high quality Spec/Raschel needles. Needles contain the features that facilitate the operation.

Adjustment can be made to produce the textile with various thickness and textures.

Additionally, Samsung Spec/Raschel needles provide customers a wide choice range of knitting needles that individual customer's needs.
